

The background of the advertisement is a photograph of a sunset over the ocean. The sun is a bright orange orb on the horizon, with its light reflecting on the water and the wet sand in the foreground. The sky is filled with dark, dramatic clouds, and the overall color palette is dominated by oranges, yellows, and deep blues.

www.typhoon-int.co.uk

Welcome, this is who we are...

Typhoon International have been innovators in providing personal protection from the elements since 1947 with a reputation for providing exceptionally high quality marine products.

In 1976 Typhoon developed the first lightweight drysuit. In 1992 Typhoon designed a revolutionary new suit using Clotex, a soft polyester trilaminate fabric alongside other breathable materials, which are now standard for most surface drysuits, making Typhoon suits the most comfortable yet toughest drysuits available.

Today Typhoon is one of the world's largest manufacturers of drysuits and a key player in the diving and watersports markets with products specifically designed for all its key leisure markets: diving, sailing, surfing, kayaking, SUP and other watersports.

Typhoon's head office in Redcar provides a full after sales service which also includes repairs and servicing.
