TracPhone® V3HTS

Effective 1 January 2021

The world's fastest, lightest ultra-compact maritime VSAT system *now has unlimited plans!*

TracPhone V3HTS is the ultra-compact VSAT system that enables you to leave the shore behind, not your connections. It delivers unmatched speed and the power to go farther and faster than ever before via the KVH mini-VSAT Broadbandsm HTS network – the No. 1 maritime VSAT service.¹ The TracPhone V3HTS's 37 cm antenna outperforms leading competing 60-85 cm Ku-band antennas and sets a new standard in marine satellite communications. It's never been so affordable or easy for everyone onboard to browse the Internet, get weather information, check email, stream HD content, connect with the office, chat via services like WhatsApp[™], and more.

HTS-Unlimited Use Regional Rate Plans

KVH's new **HTS-Unlimited Use Regional Rate Plans** deliver reliable service at the highest speeds with a fixed monthly price and **no** overage charges. If the monthly high-speed data allotment is consumed, the system automatically shifts to the shaped data rates with unlimited usage and resets to the high-speed data rates on the first of each month.

Data Service (Ku-band – HTS Network)				
Monthly Data Plans	\$/month (USD)	High-speed Data Rates ²	Shaped Data Rates	High-speed Data/month

General Terms

- All prices are in \$USD and do not include any taxes or fees that may apply.
- All services and plans are subject to the KVH Master Services Agreement.
- mini-VSAT Broadband published data rates are rate plan maximums and may vary in different regions and under different conditions. Service reception may be affected by environmental or operational conditions and its uninterrupted availability is not guaranteed.
- No annual contract for purchased equipment; rate plans are month-to-month, automatically renewing on a monthly basis. For leased terminal equipment, the contract term must be concurrent with, and extend to, the end of the lease period.
- VoIP-only Suspension Plan is offered at \$50/month with no limitation on number of months used. May not be used as activation plan. Plan change fee does not apply.
- Subscribers are not permitted to use the mini-VSAT Broadband service for BitTorrent and all such data-intensive applications and protocols will be blocked by KVH.
- Subscribers are permitted to change rate plans and switch between unlimited and metered plans with certain restrictions. \$100 fee applies for plan changes to lower priced plans (excluding VoIP-only Suspension Plan), except during the first 90 days of service to allow the subscriber to determine the plan most appropriate for their usage needs. For complete details on plan changes, see [Airtime Rate Plan Change/Suspension Policies – HTS-series](#) at kvh.com/mybcustomercenter.
- One voice line with a KVH-assigned phone number is provided at no charge. A user-specified voice line phone number is \$30/month.
- Virtual local phone numbers can be added for a monthly fee of \$30 per number (5 max.) where available/subject to in-country regulations. The list of available area/city codes worldwide can be found at: kvh.com/mybcustomercenter.
- Both incoming and outgoing calls are charged at \$0.59/minute. A few select countries and satellite phone services are blocked. Contact KVH Airtime Services for special rates for these areas and services.
- Global Static IP Service is available for \$29/month per IP address. Visit kvh.com/staticip for details.

Additional Terms for HTS-Unlimited Use Regional Rate Plans

- When the data allocation for the high-speed rate plan has been consumed, service will automatically shift to the reduced data rate shaped plan with no overage charges until the end of the calendar month. The high-speed data allocation will reset at the beginning of each month.
- If a vessel leaves the TracPhone V3HTS Regional service area, it may lose data and voice connectivity until it returns to the service area.
